Value Analysis Dashboard

Situation: Do you get asked about assessment values? Would a solution such as **Operations Dashboard** be helpful?

Demo

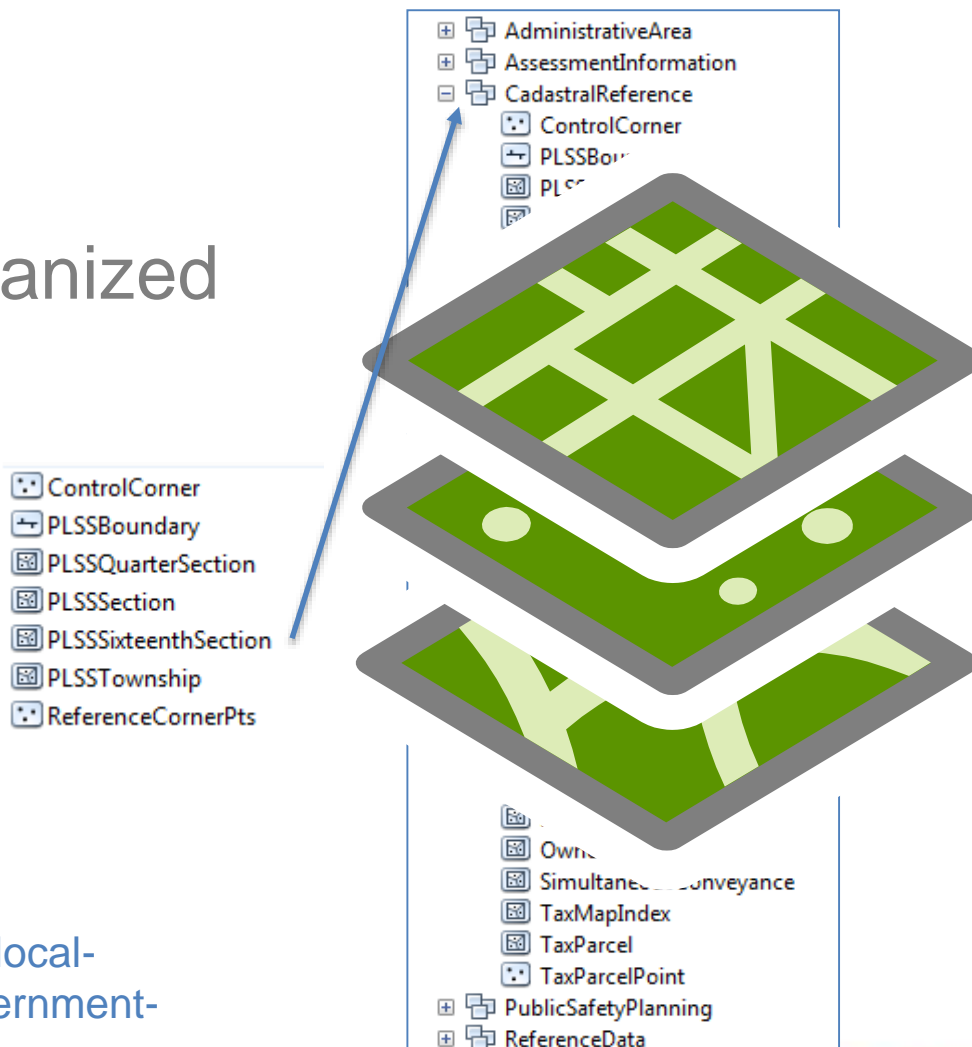

LGIM (Local Government Information Model)

LGIM (Local Government Information Model)

- Standard
 - Structured, Organized
- Scalable
 - Add if missing
- Ready to Load
 - <http://solutions.arcgis.com/local-government/help/local-government-information-model/>

LGIM (Local Government Information Model)

LGIM

- Efficient Maintenance
 - General, Parcel Fabric
- County Uses
 - Property Value, Notifications
 - Map book production
- Citizen Engagement
 - Apps for property data

Address Crowdsourcing

Situation: Do you get asked why your land information might be missing address information, or is incorrect? Would a solution that allows the public to give data feedback be helpful?

Demo

Apps & Solutions

- Deploy quickly and tweak
 - Works when proper data is in place
- Misconception: Quick apps lack quality
 - False. It was quick because your data was in place
- Spend more time doing your work, less time jerry-rigging data
- Hundreds of solutions!
